Thinking About Websites

Before you think about designing a website it is a good idea to look at websites you like and think about what it is that you like about them. You might want to incorporate some of those features and elements into your own design.

By answering these questions you will have a list of your preferences to refer to when you are designing.

1. Name three websites that you think are well-designed. (easy to use, visually appealing)

    1. _____

    2. _____

    3. _____

2. Your favorite website is: (NOT a game- a website!) _____

3. What makes your favorite website easy to use? Be specific

    1. _____

    2. _____

    3. _____

4. What VISUAL ELEMENTS (colors, images, buttons, animations etc) would you add, change, or delete to make the site easier to use? Be Specific.

5. What FEATURES would you add, change, or delete?

6. What kind of **NAVIGATION BUTTONS** do you prefer? Why?

7. Do your favorite websites have anything in common?

8. What colors do you like in websites?

9. Do you like the "flat" trend?

10. How about icons?

11. List any other thoughts you have about the appearance and usability of good websites.
